

# Sharing your images

Sharing your great plane pictures with us is quick and easy

1. Create an account at <https://www.avdelphi.com/login.html>
2. Review our [image use terms and conditions](#)
3. Use the [multi-uploader to upload your pics](#)
4. Manage [your image library](#)

## Tips & tricks

### Adding or uploading plane info

If your images have a registration/tail number or icao24 address in the filename, we will automatically look it up and use the information on the image page.

Some examples - hbjna.jpg hb-jna.1.jpg hb-jna.2.jpg 4B1916.jpg hb-ion-22jan2022.jpg

Everything before the first "." is checked. Hyphens "-" are optional. The check is case-insensitive.

You can also go back after uploading to add or edit the registration or icao24 information as well as other items such as the image title, location etc.

### Sharing on Social Media

After images are approved they may be posted to our twitter account at [@avdelphi\\_images](#) and to [facebook.com/avdelphi](https://facebook.com/avdelphi) at a later time. If you do not want your image to be posted to our social media accounts, just turn off the option when uploading, or using the image editor after uploading.

### Managing your picture library

You can easily manage all of your uploading using the image library at <https://www.avdelphi.com/myimages.html>
